

## Pan Brite (AFCO 3337)

### GENERAL DESCRIPTION

Pan Brite (AFCO 3337) is a highly alkaline cleaner designed for extra heavy-duty work. It is very high in caustic and inorganic water softening agents and contains stable wetting and defoaming compounds.

AFCO 3337 is recommended for areas that must use highly chelated compounds\*, especially C.I.P. systems, bottle washing, deep fat fryers, etc.

\*For prevention of scale formation, removing rust rings on beverage bottles, reducing water hardness to soluble salts, etc.

AFCO 3337 can also be used as a high detergency shell egg cleaner with defoamers and water conditioners to maintain performance under the most rigorous conditions.

### PHYSICAL PROPERTIES

Appearance	:	Off-White powder
Odor	:	Negligible
pH (1% solution)	:	13.0
Foam	:	Controlled, low
Solubility	:	100%
Rinsing	:	Complete

### DIRECTIONS FOR USE

#### Bottle Washing:

Use a 3% solution with an allowable soak time of not less than 5 minutes at temperature of 145°F (63°C) or more.

#### C.I.P. Systems:

Use ½ to 3 ounce(s) of AFco 3337 per one gallon (4 to 23mL/L) of water.

#### Deep Fat Fryer, Etc.:

Suggested use is 1 pound of AFco 3337 per 10 gallons (1.3Kg/L) of water.

Consult your AFco/Zep representative for more specific directions on particular use applications.

# TECHNICAL DATA SHEET

800 Development Ave. ■ Chambersburg, PA 17201 ■ 1-800-345-1329 ■ [www.afcocare.com](http://www.afcocare.com)

## Egg Washing:

1. Wash eggs as soon as possible after gathering.
2. Use 1 ounce of AFCO 3337 per 3 gallons (8mL/3L) of warm water. Maintain temperature of water between 90 and 120°F (32 and 49°C). Do NOT Exceed 130°F (54°C).
3. Allow eggs to remain in contact with sprayed cleaning solution until clean. Time will vary with amount of dirt to be removed but should not be longer than 3 minutes.
4. Then remove eggs to a cool holding room. Allow eggs to dry as rapidly as possible. Never pack eggs until completely dry and cool.

## SAFETY

Contains sodium hydroxide. Not recommended for aluminum or other light metals. Material is hygroscopic. Keep container closed when not in use. Store in a dry area.

## DANGER

Corrosive! Contains sodium hydroxide. Causes severe burns. Avoid contact with skin, eyes, or clothing. In case of skin contact, flush with plenty of water and clean with mild soap. In case of eye contact, flush with water for 15 minutes and get medical attention. Consult product's Safety Data Sheet (SDS) for complete safety information.

## NOTE

AFCO 3337 is U.S.D.A. acceptable for use in federally inspected meat, poultry and food processing plants.
