

Chloro-Quip (AFCO 3376)

GENERAL DESCRIPTION

Chloro-Quip (AFCO 3376) is a highly alkaline chlorinated granular cleaner balanced with an emulsifier and penetrating system to produce quick effective results. It is designed to be used in the cleaning of stainless-steel lines, vessels and vats.

AFCO 3376 can also be used for parts cleaning in plants with stainless material in soak or low-pressure spray application. It is an excellent heavy-duty mechanical cleaner.

PHYSICAL PROPERTIES

Appearance	:	White, granular powder
Odor	:	Chlorine
pH (1% solution)	:	12.7
Foam Level	:	Low, controlled
Wetting Ability	:	Excellent
Rinsing	:	Excellent

DIRECTIONS FOR USE

Breweries, Milk, Cheese and Ice Cream Plants:

Following a cold or tepid rinse of equipment, use ½ to 2 ounce(s) of AFCO 3376 per gallon (4 to 16mL/L) of water. Circulate solution for 15 minutes to one hour at 140 to 150°F/60 to 66°C, depending upon severity of soil. Rinse well and follow with an acid rinse - if conditions warrant.

Sanitize with one of several *AFCO/Zep* Sanitizers.

SAFETY & STORAGE

Not recommended for use in hand cleaning or for use on aluminum. Store in a cool location to prevent loss of chlorine. Do Not store in sun, near heater(s) or oxidizers.
