

Micro-Wet A (AFCO 4435)

GENERAL DESCRIPTION

Micro-Wet A (AFCO 4435) is a detergent additive for cleaning RO and UF membranes. It is based on a combination of surfactants and is designed to help in emulsifying fatty soils. In addition, it provides detergency to improve the performance of the cleaning solution. USDA authorized P1, 3A.

PHYSICAL PROPERTIES

Appearance	:	Clear, pale-yellow liquid
pH (1% solution)	:	8.0 to 10.0
Specific Gravity	:	1.01
Composition	:	Surfactant blend

DIRECTIONS FOR USE

Micro-Wet A (AFCO 4435) is used on the alkaline wash cycle when cleaning RO and UF equipment. Typical use concentration is 8 fluid ounces per 100 gallons (62.5mL/100L) cleaning solution.

An *AFCO/Zep* Technician will assist you with developing a cleaning program for your membrane system.

SAFETY

DANGER! Corrosive. Causes skin irritation and serious eye damage. Consult the product's Safety Data Sheet (SDS) for complete safety information.
