

HyperClean Plus (AFCO 5230)

GENERAL DESCRIPTION

HyperClean Plus (AFCO 5230) is a low foaming, alkaline, chlorinated, liquid cleaner which is designed for the circulation, soak, and spray cleaning of dairy, beverage, and food processing equipment. Because it contains caustic potash, it rinses more easily than caustic soda-based products. AFCO 5230 has better hard water tolerance than regular chlorinated alkaline cleaners and will prevent the formation of hard water scale leaving equipment bright and shiny. Since it contains chelates, water conditioning agents, chlorine, and a surfactant, AFCO 5230 is considered a One-Step cleaner in most water conditions eliminating the need for a regular acid wash.

PHYSICAL PROPERTIES

Appearance	:	Hazy to clear, pale yellow-green liquid
pH (1% solution)	:	11.8
Density	:	10.0 lbs./gallon
Avail. Chlorine	:	3.0% (minimum)
Foam Level	:	Very low
Shelf Life	:	1 Year

DIRECTIONS FOR USE

Circulation and Spray Cleaning:

Use ½ to 2 ounce(s) of AFCO 5230 per gallon (4 to 16mL/L) of water at 140 to 150°F (60 to 66°C) for 20 to 30 minutes. Drain equipment, then rinse with potable water.

SAFETY

For use on stainless steel processing equipment. Avoid prolonged contact with aluminum or soft metals.

DANGER

Corrosive! Causes severe skin burns and serious eye damage. Consult the product's Safety Data Sheet (SDS) for complete safety information.
