

## Liquid Egg Terge (AFCO 5243)

### GENERAL DESCRIPTION

Liquid Egg Terge (AFCO 5243) is an alkaline, liquid detergent, designed for shell egg cleaning and egg processing equipment. Convenient liquid form allows efficient automatic feeding, which eliminates the wide variation in concentration common with powdered detergents. Additives in AFCO 5243 provide powerful cleaning action. Leaves eggs clean and free from stains. Low foam properties make AFCO 5243 ideal for use in Egg and Poultry Processing Plants.

### PHYSICAL PROPERTIES

Appearance	:	Clear, colorless liquid
pH (1% solution)	:	12.3
Foaming	:	Low
Biodegradable	:	Yes
Rinsing	:	Excellent

### DIRECTIONS FOR USE

#### Egg Cleaning:

1. Wash eggs as soon as possible after gathering.
2. Use ½ to 1 ounce of AFCO 5243 per gallon (4 to 8mL/L) of warm water. Maintain temperature of water between 90 to 110°F/32 to 23°C. Do **NOT** exceed 130°F/54°C!
3. Allow eggs to remain in contact with sprayed cleaning solution until clean. Time will vary with amount of soil to be removed but should not be longer than 3 minutes.
4. Remove eggs to a cool holding room. Allow eggs to dry as rapidly as possible. Never pack eggs until completely dry and cool.

### DANGER

Corrosive! Contact with undiluted product causes severe skin burns and serious eye damage. Harmful if
