

## Scrubbie (AFCO 5249)

### GENERAL DESCRIPTION

Scrubbie (AFCO 5249) is a high foaming, highly alkaline cleaner/degreaser which is designed for removing fat, grease, and oily soils from food processing equipment in dairies, bakeries, and in meat and poultry processing plants. AFCO 5249 is a versatile cleaner and is effective in a wide variety of applications. In addition to cleaning food processing equipment, it can be used for cleaning floors, walls, and for soak cleaning metal parts.

### PHYSICAL PROPERTIES

Appearance	:	Clear, dark blue liquid
pH (1% solution)	:	11.7
Density	:	8.75 lb/gal
Foam Level	:	High
Composition	:	Alkaline builders, solvents, and nonionic and anionic surfactants

### DIRECTIONS FOR USE

\*The recommendations given below are general recommendations only!

AFCO 5249 can be used at any concentration that is necessary to clean the equipment. When used on food processing equipment, follow with potable water rinse.

Note: In Canada, to remain compliant with Canadian VOC regulations, do not exceed a use rate of 14.5 oz/gal (113 mL/L).

Consult your *AFCO/Zep* sales representative for specific use instructions.

### SAFETY

Safe on concrete, iron, steel, stainless steel. Safe for use on neoprene, rubber and nylon. Do not use on aluminum as it will corrode!

### DANGER

Corrosive! Contact with undiluted product causes severe skin burns and serious eye damage. Consult the product's Safety Data Sheet (SDS) for complete safety information.
