

Clean Trac Alpha (AFCO 5589)

GENERAL DESCRIPTION

Clean Trac Alpha (AFCO 5589) is a synthetic, water-soluble lubricant formulated for the lubricating and cleaning of tabletop and in-floor conveyors in the dairy, beverage, and food processing industries. When used even at economical use dilutions, AFCO 5589 provides excellent lubricity. Wetting agents, surfactants and solvents ensure maximum soil penetration and detergency.

The mild pH combined with the excellent cleaning ability provides efficiency and longevity of equipment.

PHYSICAL PROPERTIES

Appearance	:	Clear, Colorless to slight amber liquid
pH	:	8.0 - 9.0
Density	:	8.31 lbs./gallon

DIRECTIONS FOR USE

The suggested use levels for Clean Trac Alpha (AFCO 5589) range from 100-1 (1.0%) to 300-1 (0.33%). Dilution ratio does vary with conveyor loads, type of conveyor.

The most economical dilution rate will be determined by your *AFCO/Zep* Representative.

Dilution ratio does vary with conveyor loads, type of conveyor.

CORROSION DATA SAFETY

Safe to use on stainless steel, galvanized steel, copper, brass, and aluminum when used at the recommended use dilution.

DANGER

Contact with the product undiluted causes serious damage to the eyes and skin irritation. Consult the product's Safety Data Sheet (SDS) for complete safety information.
