

Millennium Red (AFCO 6005)

GENERAL DESCRIPTION

Millennium Red (AFCO 6005) is a concentrated inorganic blend of acids, especially designed for CIP cleaning and for rapid soil removal. AFCO 6005 is designed for use in Dairy and Food Processing Plants for removing scale, milkstone, and stains.

PHYSICAL PROPERTIES

Appearance	:	Clear, red liquid
Odor	:	Slightly acidic
pH (1% solution)	:	1.8
Density	:	9.47 lbs./gallon
Foam	:	None

DIRECTIONS FOR USE

AFCO 6005 should be used at a concentration of 1 to 2.0 ounce(s) per gallon (8 to 16mL/L) of water at a temperature up to 150°F/65.5°C for up to ten minutes which is recommended for most soils. Surfaces are brightened using 2 ounces of AFCO 6005 per gallon (16ml/L) of water at 110°F/43.3°C for 15 to 20 minutes.

Acid Rinse:

Use 1 ounce of AFCO 6005 per 5 to 10 gallons (8ml/5-10L) of water in final rinse cycles.

SAFETY

Safe on stainless steel when used as directed. Contact with ferrous and light metals should be avoided; will produce harmful gases.

DANGER

Corrosive. Contact with undiluted product causes severe skin burns and eye damage. Consult the product's Safety Data Sheet (SDS) for complete safety information.
