

Millennium Yellow (AFCO 6008)

GENERAL DESCRIPTION

Millennium Yellow (AFCO 6008) is a very high foaming chlorinated liquid detergent. It is specifically designed for foam and high-pressure spray cleaning of food and dairy plants. It is a complete product containing alkalis, water conditioners and chlorine, together with high foam wetting agents. This combination of ingredients is effective even at cold water temperatures. AFCO 6008 is very effective where fatty and protein soils are a problem.

PHYSICAL PROPERTIES

Appearance	:	Clear, pale yellow-green liquid
Density	:	9.65 lbs./gallon
pH (1%)	:	11.8
Available Chlorine	:	2.7% (Minimum)
Foam Level	:	Very high and stable
Shelf Life	:	1 Year

DIRECTIONS FOR USE

Pressure Spray, Soak, and Manual Cleaning:

Use ½ to 4 ounce(s) of AFCO 6008 per gallon (4 to 31mL/L) of water depending on the type and amount of soil. For best results, the temperature of the solution should be between 43 & 71°C/110 & 160°F. Rinse all food contact surfaces with potable water after cleaning.

Foam Cleaning:

Use 3 to 5 ounces of AFCO 6008 per gallon (23 to 39mL/L) of water depending on the type and amount of soil. For best results, the temperature of the solution should be between 43 & 71°C/110 & 160°F. Rinse all food contact surfaces with potable water after cleaning.

SAFETY

Avoid prolonged contact with aluminum or soft metals.
